

APPENDIX Q: DTS ORGANIZATION NAMING CONVENTION

Q.1 Introduction

The source document for the information in this appendix is the PMO DTS Organization Naming Sequence, Version 2.11, September 2002, and is subject to change. Users should check the DTS defensetravel.osd.mil Website for the latest version of this guide.

1. In order to effectively implement the Defense Travel System (DTS), DoD is establishing a standard organization naming convention for use in DTS. The data field within the DTS software is 20 alphanumeric positions. For maximum efficiency and utility, the naming convention must be logical, easily understood in the field, and hierarchical in nature.
2. Leadership for Service headquarters, Washington Headquarters Services (for the Defense Agencies), and The Joint Staff (for unified and combined commands) must enforce the naming convention. Levels 1 and 2 will be directed by the PMO; level 3 will be directed by the respective Service/Agency headquarters within PMO guidelines; level 4 and higher will be for local use within appropriate Service/Agency headquarters guidance.

CAUTIONARY NOTE: The more levels utilized, the more maintenance required as personnel change organizations within an installation. The structure should be carried no lower than the level where travel funds are allocated or travel costs are managed.

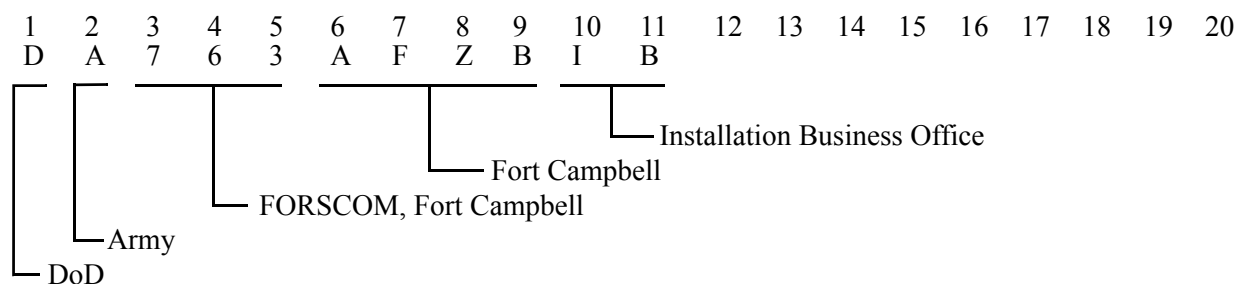

3. The following structure will be used:

Level	Positions	Title	Values
1	1	Federal Agency	D = DoD
2	1	Component	A=USA; F=USAF; M=USMC; N=USN; D=Defense Agency; J=Joint commands
3	Service specific	MAJCOM, MACOM, Major Claimant, Defense Agency Bureau Code, Unified/Combined Command/installation code	See Service and Agency specifics below
4 +	Service specific	Normal office symbol, mail code, etc.	See Service and Agency specifics below

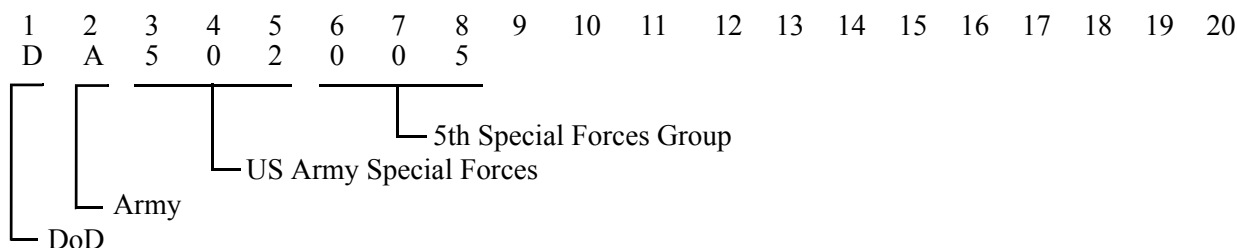

- a) Use of standard codes for level 1 will permit information queries across all DoD. Additional codes will be added if DoD provides DTS services to other Federal Agencies.
- b) Standard component codes for level 2 permit information queries across an entire Service, all defense agencies, or joint commands.
- c) Use of standard codes for level 3 permit functional managers to rollup data by major organizations, an entire Defense Agency, unified command, combined command or installation.
- d) Use of standard Service and Agency office symbols and mailing codes for levels 4 and higher will permit rollup of data at any desired organizational level since these codes are hierarchical in nature. These codes are commonly used throughout installations and are known locally.

Q.2 Army Naming Convention

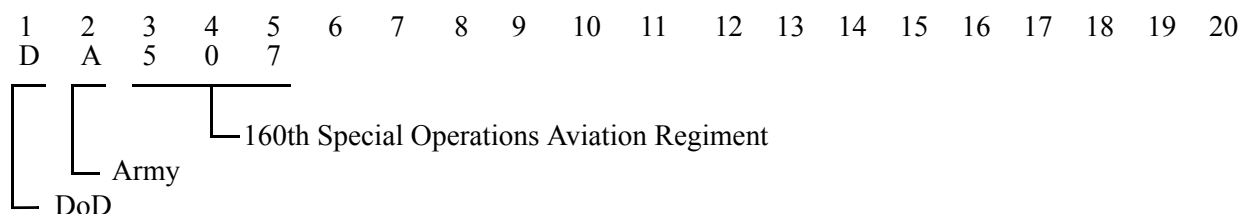

1. The MACOM codes contained in Annex 1 are used by the Defense Travel Administration (DTA) team to develop the Army's organizational hierarchies. This enables managers and administrators to obtain financial reports related to their specific organizations. MACOM codes will be used for positions 3, 4, and 5 (level 3). Positions 6 through 20 (levels 4+) will be developed by the MACOMs. Army recommends that Table of Distribution and Allowance organizations use the standard office symbol, and that military line units use their unit designators. Examples of each are detailed below. Some MACOMs have developed supplemental codes for Major Subordinate Commands. Lead DTAs need to contact their MACOM DTAs for further information.
2. Army Sample Organizations.

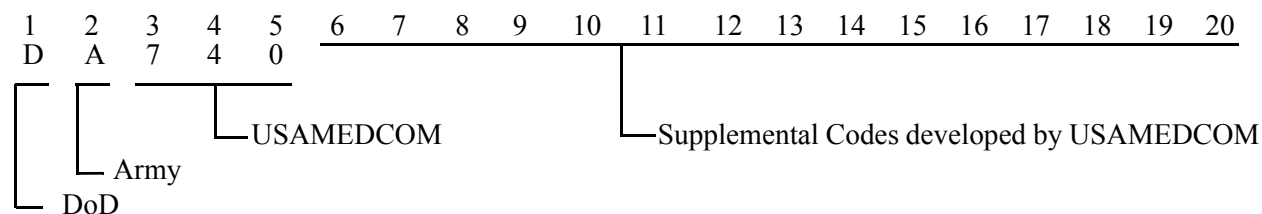

DoD; Army; U. S. Army Forces Command, Fort Campbell; Fort Campbell; Installation Business Office

DoD; Army; U. S. Army Special Forces Command, 5th Special Forces Group

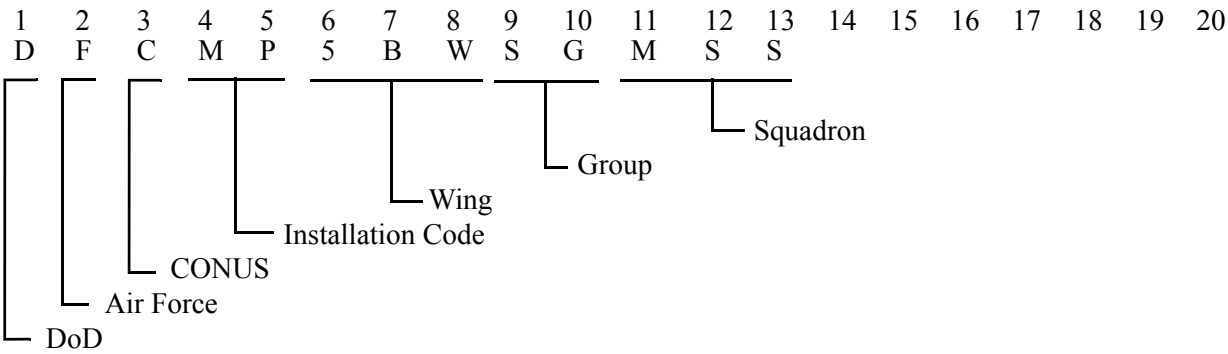

DoD; Army; 160th Special Operations Aviation Regiment

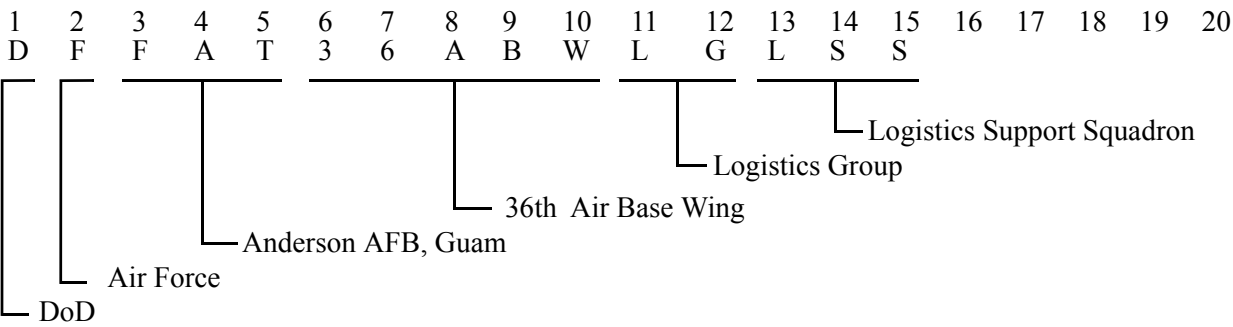

DoD; Army; U.S. Army Medical Command; Supplemental codes from MACOM

Q.3 Air Force Naming Convention

- 1. Positions 3, 4, and 5 will be the installation MAJCOM code (level 3). Installation MAJCOM codes are contained in Annex 2. Positions 6 through 20 (levels 4+) will be composed of the Wing or Squadron number or headquarters office symbol and the standard office symbol published by the Air Force Communications Agency.
- 2. Air Force Sample Organizations.

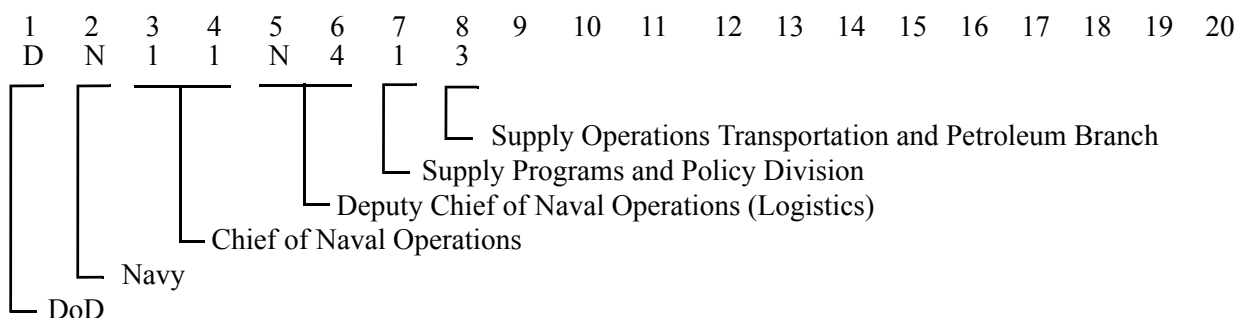

DoD; Air Force; Minot AFB, ND; 5th Bomb Wing; Support Group, Mission Support Squadron

DoD; Air Force; Anderson AFB, Guam; 36th Air Base Wing; Logistics Group; Logistics Support Squadron

Q.4 Navy Naming Convention

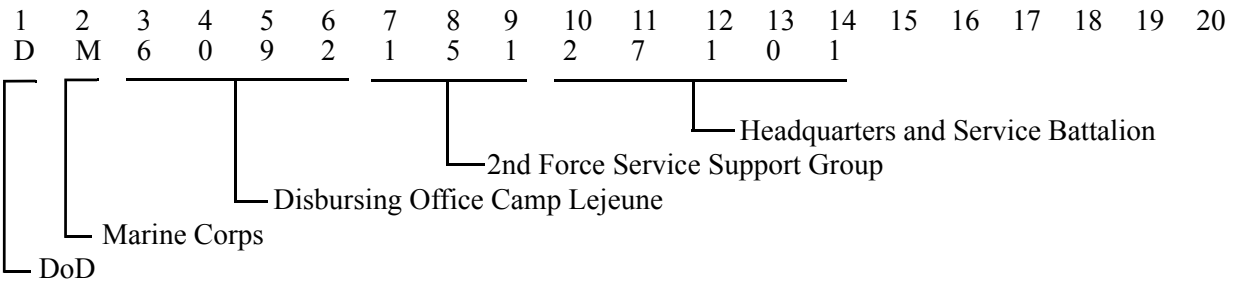

1. Positions 3 and 4 (level 3) will be the Major Claimant code for the echelon one and two commands. Major Claimant codes are contained in Annex 3. Positions 5 through 20 (levels 4+) will be used by echelon three and below commands/subordinate commands and activities as directed by their echelon two major claimant. Levels 4+ may incorporate conventions such as the ship's designator, office codes, etc.
2. Navy Sample Organization.

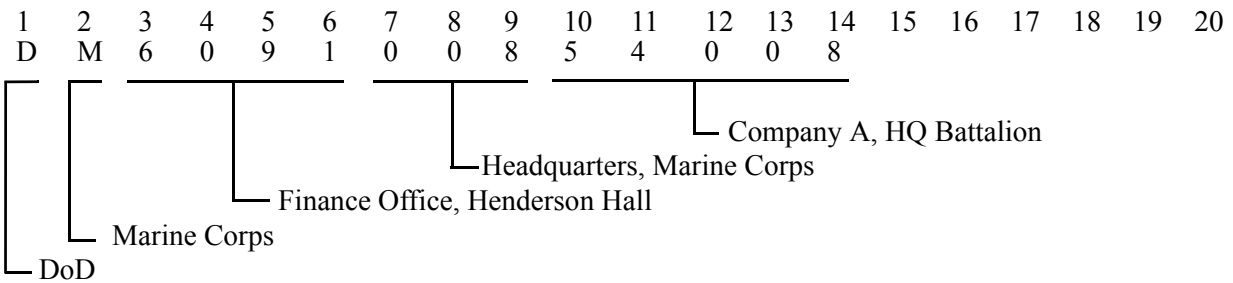

DoD; Navy; Chief of Naval Operations; Deputy Chief of Naval Operations (Logistics); Supply Programs and Policy Division; Supply Operations Transportation and Petroleum Branch

Q.5 Marine Corps Naming Convention

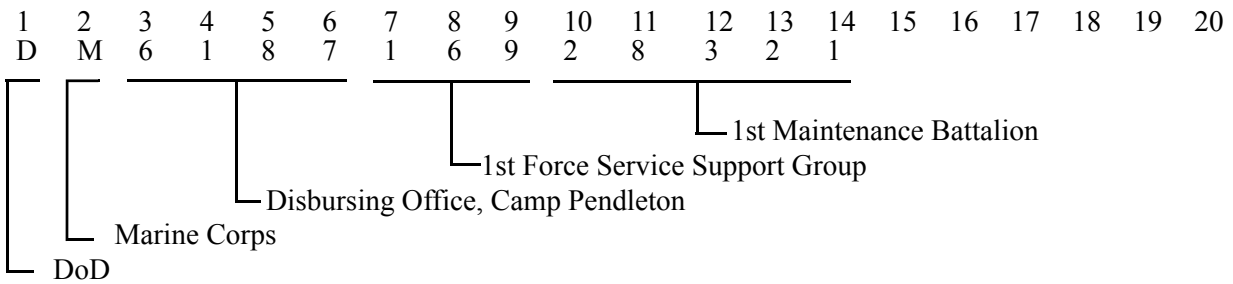

- 1. The Major Command Codes (MCC) and Reporting Unit Codes (RUC) to be used by Marine Corps units are contained in Marine Corps Order (MCO) P1080.20M, Marine Corps Total Systems Codes Manual (MCTFSCODESMAN). Positions 3 through 6 (level 3) will be the normal disbursing station number (DSSN) for the organization. Positions 7 through 14 will be the unit’s MCC and RUC.
- 2. Marine Corps Sample Organizations.

DoD; Marine Corps; Disbursing Office, Camp Lejeune; 2nd Force Service Support Group; Headquarters and Service Battalion

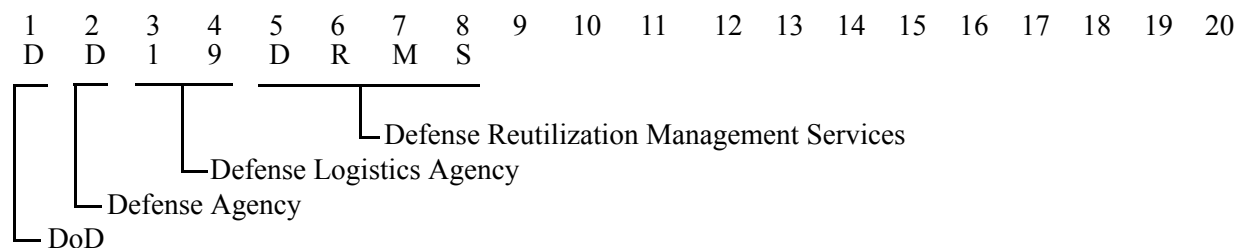

DoD; Marine Corps; Finance Office, Henderson Hall; Headquarters, Marine Corps; Company A, Headquarters Battalion

DoD; Marine Corps; Disbursing Office Camp Pendleton, 1st Force Service Support Group, Camp Pendleton; 1st Maintenance Battalion

Q.6 Defense Agency Naming Convention

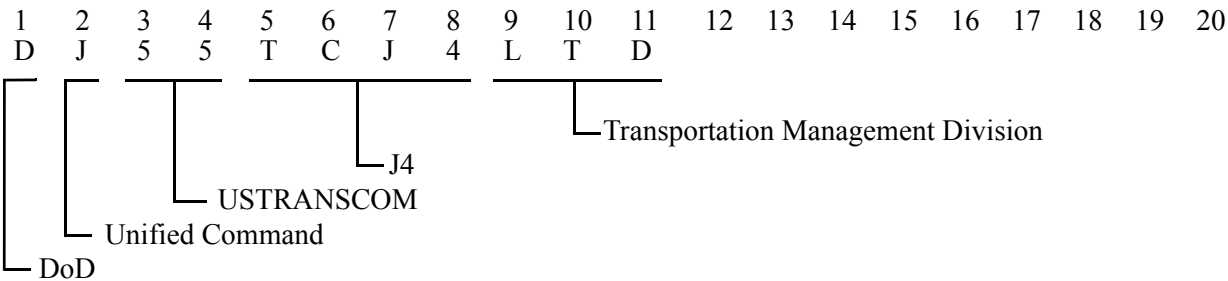

1. The Defense Agency codes contained in Annex 5 will be used in positions 3 and 4 (level 3). The remaining positions (levels 4+) will be as directed by the Agency headquarters.
2. Defense Agency Sample Organization.

DoD; Defense Agency; Defense Logistics Agency; Defense Reutilization Management Services

Q.7 Unified and Combined Commands Naming Convention

- 1. Component commands will use their Service specific naming structures, e.g., Air Mobility Command (AMC), a component command of the United States Transportation Command, will use the Air Force naming convention for their personnel. Air Force personnel assigned directly to Headquarters, USTRANSCOM, i.e., Air Force Element, USTRANSCOM, will use the sequence outlined in this paragraph. The combined and unified command codes contained in Annex 6 will be used in positions 3 and 4 (level 3) for the headquarters elements. The remaining positions (levels 4+) will be as directed by the unified command headquarters.
- 2. Sample Organization.

DoD; Unified Command; U.S. Transportation Command; J4; Transportation Management Division
